## cGrate Consulting International Company Profile

---

cGrate is a mobile content aggregator and a Telco partner, with a core aim of extending mobile network providers value added services, and providing the vital link between business and mobile phone users.

In order to clearly serve the wide range of services in the mobile space, cGrate has three main strategic divisions; [cGrate Mobile](#), [cGrate Financial](#) and [cGrate V.A.S](#) with each division playing a crucial role in serving the needs of our clients.

[cGrate Mobile](#) handles mobile content aggregation, mobile advertising, and IN Billing integration, while [cGrate Financial](#) serves the growing demand to integrate financial solutions into the mobile space. [cGrate V.A.S](#) is more Telco oriented; it extends mobile network operators value added services via channels like USSD, Location Based Services, and through Customised Applications for Mobile Enhanced Logic (CAMEL).

Leveraging on cGrate's management team experience, cGrate has established good MNO partnerships in southern Africa mainly in Malawi, South Africa, and Zambia. With these partnerships we continue to provide world class solutions in our endeavour to be a globally recognised Telco partner, that extends Telco VAS services and provides the link between business and mobile phone users worldwide.

Our business website provides you with extensive information on our products and services as offered by the various divisions. For more information please visit <http://cgrate.com>.
